

DEALPACK INTEGRATION SETUP AND SCREENS

Dealpack setup screen:

- A) We've added parameter settings for the Tone 1 – Tone 3 days as well as whether future PTP's should be considered when sending the Tone commands:

I.T.S. Y/N / User ID / Password	Y	abc	***
Automated Tones Y/N Include PTP Y/N	Y	Y	
Tone 1 Days 2 Days 3 Days	1	3	5

- B) There will be an automated program that runs based on a pre-defined schedule that will do the following:
- Obtain the IPs of active units in Ituran and update your Deal Pack system based on Stock/Acct #.
 - Send the appropriate Tone commands based on days late or days after PTP Due Date.
 - Send Paid command if account is current.
- C) In addition, we're sending a paid command whenever a payment is made in Deal Pack that brings the account current and have also added a Paid command to the GPS Locate pop-up window so you can issue the command on demand.

Details:

The parameters can be set up by the end user but we have to first enable the feature for them.

Here's a brief overview:

End user sets up their parameters:

Automated Tones Y/N Include PTP Y/N	Y	Y	
Tone 1 Days 2 Days 3 Days	1	3	5

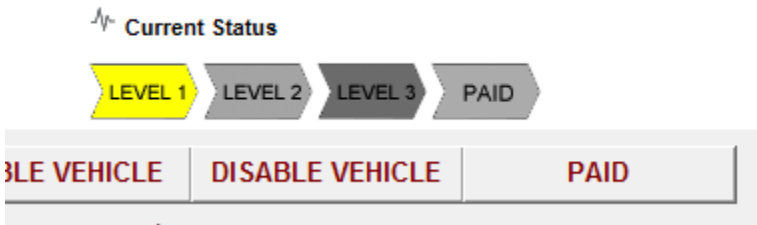

Then we have to install a program that runs automatically. The end-user can determine the frequency of which they want the program to run.

Automated Program:

At one day late:
